The club was formed in 1981 by a group of enthusiasts for those people who are interested in scale and stand-off scale models of launches, boats, ships and sailing vessels. Models presently encompassed by the society, range from the simplest kitset available to sophisticated radio-controlled models which have taken years to complete.

## Club Activities

- **Monthly Meetings**

These usually include at least one organised demonstration depicting some aspect of the hobby and videos are shown when they are available. Members are encouraged to bring along their models to these meetings, completed or uncompleted, for members to see and discuss any ideas or to offer advice on problems. Society meetings are held on the second Wednesday of each month at 19.30 hours (7.30 p.m.), the venue is the S.M.M. clubhouse on the Petersons Reserve, off Waipuna Road, Mount Wellington.

- **Public Sailing**

As part of membership, members are required to assist with the running of the club boats which is the club's major source of funds. Each member is required to assist at least twice per year by means of a roster. Assisting with the public boats enables the club to keep membership fees down. Public sailing usually starts at 1pm and ends at 4pm on the relevant Sunday afternoons. Club boats are available for the public to use for a small donation.

- **Club Sailing**

Sailing takes place on our club pool, which is adjacent to the A.S.M.E. railway complex at Petersons Reserve. Sailing usually commences at 10.00 hours (10.00 a.m.) until approximately 15.30 hours (3.30 p.m.). Members are, of course, able to sail on the club pool whenever they wish, and the club pool is in use every Sunday as follows:

- 1<sup>st</sup>, 2<sup>nd</sup>, 4<sup>th</sup> and 5<sup>th</sup> Sundays of the month:

- Free sailing from approximately 10.00 hours (10.00 a.m.)
- Public sailing from 1pm if the public boats are running.

- 3<sup>rd</sup> Sunday of the month:

- Reserved for club competitions. Competition usually starts at 10am with a different course each month. Points scored count towards the yearly competitions. Events cover mercantile steering, tug towing, yachting.

Club boats available for the public to use for a small donation from 13.00 hours (1.00 p.m.) to 16.00 hours (4.00 p.m.). On public sailing days members can also sail provided their frequencies do not clash with those of the club boats.

- **Public Displays**

These are organised for such events as hobby exhibitions, boat shows, school galas etc.

All members are invited to display their models and their support is requested to assist in the organization and running of these events.

- **Static Competitions**

Usually held in the clubhouse on the November club night.

- **The MailShip**

A monthly magazine is sent to all society members. Club news, model building information, members articles etc. All contribute to the MailShip.

- **Library**

The society runs a library for members which contains books on all aspects of shipping and modelling. We also have a plan library which covers most types of vessels. The library is widely used by members and is growing all the time.

- **Workshops**

On club nights, from time to time. Members requiring help or advice can bring their models along on normal club nights for this purpose.

- **Membership**

Full membership covers all members of the family. When children reach 14 years, they are expected to become a junior member. Junior membership & associated membership gives members the monthly MailShip only.

One of the society's aims is to foster family participation in all club activities. We have seating around the pool and a grassed area where members can sit and watch the proceedings. There is also a covered area to keep members and their boats reasonably dry in inclement weather. From time-to-time barbeques may be organized in conjunction with special competitions. Twilight sailing is available if requested by members.
